The Perfect Experience

**ProHD**  
High Definition Image by JVC

Have you ever thought about a professional lightweight, camcorder that can be hand-held as well as shoulder-mounted ?

... that has interchangeable bayonet-mount lenses?

... and can handle High Definition progressive as well as Standard Definition PAL – using the same MiniDV tapes?

... offers PAL recording in either 16:9 or 4:3?

...and outputs HD in both 720p/50 and 1080i/50?

The GY-HD100E has all this and more!

It's a new concept in compact hand-held camcorders, with all the operational and functional advantages of top-end shoulder mount camcorders

**3-CCD, 16:9,  
Native resolution  
1280x720 pixels**

**Fujinon 16x zoom lens**

**0.44" viewfinder  
with Focus Assist  
function**

And there's even more!

The GY-HD100 can record in true 24p HD, with SMOOTH MOTION function for film-like productions

and records in HD & SD on an optional external hard disc drive

**Sliding shoulder support**  
**3.5" LCD monitor panel**

**SD Card**  
**Audio 2 x XLR**

**JVC Lithium-Ion battery BN-V428**  
**and other leading brand batteries**

When can you get your hands on (or shoulder under) a GY-HD100 ?
